EASE OF INSTALLATION

Its lightness and ease of use allow an excellent workability even at low temperatures. Vestis H41 with thickness 0,70 mm is malleable and flexible while maintaining an high mechanical strength; it is therefore used for roofing. For cladding and gutter production we offer Vestis with thickness 0,8 - 1,0 mm with physical state H41, that has an higher resistance. Vestis is extremely scratch-resistant and is available also with stucco surface.

AFFORDABLE

Vestis has a very favorable price-quality ratio and a greater price stability over time.

ECOLOGICAL AND RECYCLABLE

Vestis is atoxic and 100% recyclable.

and in addition Vestis K2

BACK SIDE UV RESISTANT

The back side is UV resistant also at high altitudes.

ALL WHEN IT RAINS

K2 SURFACES

UV RESISTANT

UV resistant also at high altitudes.
More weatherproof than normal
surfaces. More long-lasting.

SCRATCH-RESISTANT

Scratch-resistant to facilitate
operator's activity and to achieve
a more aesthetic result for his
customer.

ALL WHEN IT RAINS

GOFRAJLI YÜZEY: AVANTAJLAR

GOFRAJLI YÜZEY AVANTAJLAR

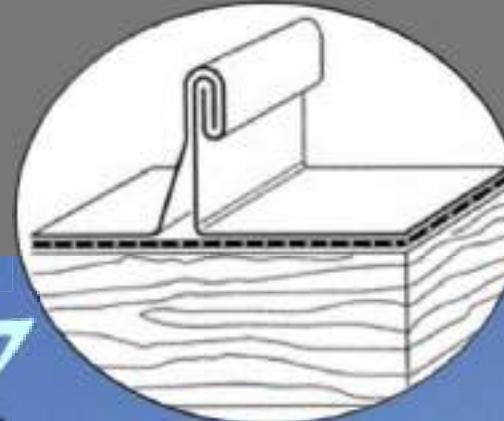

- 1) Uygulama Hatalarına Karşı daha fazla direnç
- 2) Çıktınlı yüzey kaplamaları için ideal
- 3) Dolu gibi beklenmeyen mekanik etkenlere karşı yüksek mukavemet
